Are you left with one or more small pensions?
Or larger pensions that are restricted in some way?
Maybe you have to take an Annuity and your pension fund dies with you?

If the answer to any or all of the above is yes then a SIPP may be the solution.

Firstly, what is a SIPP?

A SIPP is a Self Invested Personal Pension (sometimes called a self-administered pension), fully approved by HM Revenue and Customs.

It offers unrivalled options for retirement provision, with real flexibility, and a single arrangement for all UK pensions.

Left with lots of small pensions- or one inflexible one? Have to take an annuity?

Why choose a SIPP?

A SIPP offers consolidation of existing arrangements, all pension needs can be administered under one trust, to produce a coherent pension plan.

It gives access to retirement funds from age 50, the opportunity to take a cash amount, tax free, and an income as well, there is no need to buy a purchased annuity, there is a wide choice of investments. An important point is the improved dependants benefits it offer, its value is not lost on the death of the holder.

It is an excellent option for Ex-pats, as well as UK residents.

Contact us for more in-depth information, and a discussion of the options available.
